

- (1) 310318 - SFES PRO, Quad Head
- (4) 310371 - SFES PRO, TOC-10 Cartridge

System Summary

The **SFES PRO** TOC-10 Quad System provides excellent sediment filtration, chlorine and chloramine removal for beverage related equipment such as soda systems, juice machines and drinking water

The system utilizes a premium high grade carbon block filter that specializes in higher sediment loading capacity ensuring great tasting drinking water and beverages.

Benefits

- Consistent high quality and great tasting beverages
- Reduced costs since costly over compensation of syrup is not needed to mask chlorine taste
- Higher beverage carbonation increasing effervescence helping eliminate flat drinks
- Removes chlorine and chloramines to improve taste and reduce potential corrosion issues

Features

- Bayonet style quick disconnect cartridge makes filter replacement sanitary, quick and easy
- Compact design facilitates system placement and installation

Installation Summary

- Place system in an accessible location for ease of filter replacement
- Ensure that the system is mounted vertically with a minimum of 2" clearance from the bottom of the system to allow for filter replacement
- Cold water inlet feed only
- Do not over tighten fittings

Operating Tips

- Recommended cartridge replacement every 6 months

Application

- Drinking Water
- Soda Systems
- Juice Machines

- (1) 310318 - SFES PRO, Quad Head
- (4) 310371 - SFES PRO, TOC-10 Cartridge

System Specifications

Rated Service Flow

6.6 gpm. (24.98 lpm.)

Rated Capacity

40,000 gal. (Chlorine Removal)

14,000 gal. (Chloramine Removal)

Operating Pressure

30 - 125 psi. (2 - 8.6 bar) non-shock

Operating Temperature

35° - 100°F (2° - 38°C)

Connection Size

1/2" MNPT

Shipping Weight

12 lbs.

System Dimensions

15.25" x 19" x 4" (HxWxD)

*Width w/ 1/2" Male Fittings: 21"

*Width w/ 1/2" Cross Kit: 23"
